Government Funded Training Summary for Lean/Six Sigma Business Improvements

Vative have extensive experience in Lean processing, business optimisation and training. Together with Government funding, Vative are able to deliver cost neutral programs that will up skill your employees, while working towards business improvement objectives and company targets.

How is the training funded?

Training is funded by the Government and promotes the up skilling of the workforce via the following types of nationally recognised certificates:

- ✔ Certificate III – for operators and production staff
- ✔ Certificate IV – for trades people, team leaders, supervisors and specialists
- ✔ Diploma & Ad. Diploma – for managers, senior supervisors, change agents and business leaders

These certificates apply to multiple disciplines and industry sectors including all the following:

- ✔ Competitive Manufacturing
- ✔ Process Manufacturing
- ✔ Health care Operations
- ✔ Transport and Logistics
- ✔ Food Processing
- ✔ Administration
- ✔ Mining Operations
- ✔ Business Development
- ✔ Front Line Management
- ✔ Sales and Marketing

Who is eligible for funding and what are the requirements?

Any full time employee of the business is eligible for funding if they meet all of the following requirements:

- ✔ Must be an Australian resident
- ✔ Must have below a Advanced Diploma level of education

Funding varies from state to state and Vative is able to offer a national solution.

Vative are able to freely assess your company's funding potential. Ask us for help!

What does the training teach?

Businesses have the option to select training projects that suit their business needs. Vative conduct a strategic business assessment and provide suggestions on most appropriate projects that will bring greatest benefit to the business.

Project options available are:

Training based projects:

- ✔ 5S – Workplace organisation
- ✔ Kaizen and Continuous Improvement
- ✔ Kanban and Just In Time (JIT)
