Lean Six-Sigma - Waste Eliminators

Vative is an organisation of dynamic and creative industry experts that take an analytical approach to process, operational and business performance, providing innovative solutions according to customer's specific needs. The Vative core team consists of individuals that are dedicated to developing superior business systems and processes. Vative have a reputation for being thorough in assessing organisational performance and being able to deliver robust and comprehensive business improvement solutions.

Vative's team of **Lean and Six-Sigma** experts are seasoned professionals with a unique combination of Academic and Trade backgrounds. This blend of skills ensures that the solutions offered are simple, effective and realistic that enables fast cost effective delivery of solutions to clients.

Vative's experience across a number of industries and businesses, allows for a flexible approach to suit a variety of business needs. With decades of collective "hands on" experience, Vative have developed a comprehensive tool kit comprising of a range of training programs and project services. All programs and services are based, but not limited to, best practice Lean Manufacturing and Six-Sigma Methodologies.

Vative Capabilities:

- ✓ Lean Manufacturing/Business Solutions
- ✓ Lean Supply Chain
- ✓ Six-Sigma Operational Forensics
- ✓ Business Optimisation & Development
- ✓ Strategic Planning
- ✓ Sales & Marketing Planning
- ✓ Government Funded Training
- ✓ Government Funded Business Optimisation & Project Implementation

Government Grants:

Vative's proven track record in bringing tangible & significant business improvement has seen them become a "partner of choice" for business improvement grants through various Federal and State Government initiatives (eg. Enterprise Connect, Grow Your Business etc). If your business is trying to chase performance improvements you're in the right place.

Government Funded Training & Implementation:

Vative have developed a number of benchmark Lean Business and Six-Sigma programs in line with Federal and State Government Certified programs. This enables Vative to provide your business a holistic solution through strategic business analysis, goal setting and then planned project implementation through best practice training methodologies over a minimum engagement period of 10-12 months. In this way, your business and its collective employee group acquire the necessary tools, techniques and culture to sustain improvements and tackle new challenges that will be encountered into the future.

Value to the Client:

If your business is trying to chase performance improvements, Vative have a track record of delivering 500% average return on investment (ROI). Many large and small companies are saving millions of dollars by embracing Lean and Six Sigma. By packaging the various Government Training and Business Improvement Grants, Vative can offer cost neutral custom solutions to clients and an ability to access world class business support.

Establishing your Lean Six-Sigma enterprise will attract other global Lean Six-Sigma companies to trade with your business.
